

FRB Taiwan 2026 Conference

Wide-Field Survey of Fast Radio Bursts and Future Cosmology

April 8–11, 2026 | Green Island, Taiwan

Exploring fast radio bursts with BURSTT, wide-field surveys, advanced localization,
and global collaboration—toward new insights in cosmology.

INVITED SPEAKERS

James Okwe Chibueze (University of South Africa)
Junhan Kim (KAIST)
Albert Lau (University of Toronto)
Quang Nguyen Luong (CEA Saclay)
Ryuichi Takahashi (Hirosaki University)

HIGHLIGHTS

Wide-field FRB surveys
BURSTT & global outriggers
Cosmology applications
Collaboration opportunities
